

AP Human Geography Summer Assignment Country Presentation

Hello AP Students,

Welcome to high school! I am so excited that you have taken the opportunity to familiarize yourself with AP Classes by taking AP Human Geography. In order to prepare for this year you will be completing a summer assignment and giving a presentation the second week of school.

To complete this assignment you will need to become an “expert” on one specific country of your choice *outside* of North America. You will also need to do an accompanying write-up to turn into me in addition to your slideshow presentation.

In the presentation include slide(s) on:

Culture (food, celebrations, artwork, etc.)

Geography (mountain ranges, rivers, forests, climate, etc.)

Politics (government, current events, foreign relations, etc.)

History (colonization, wars, major events, etc.)

Optionally you may bring a traditional dish from your country. If you bring enough to share with the whole class you will get 5 bonus points!

In the write-up include:

Continent

Longitude/latitude

Bordering countries and bodies of water

Hemisphere

Mountain ranges

Rivers

Deserts

Climate and Weather

Brief Political History

Current Events

Other interesting facts

This work will be due Monday, August 21st (first full week of school). Have a great summer!
